First: Performance Discount

Policy

High performing and more able students are eligible for a discount on tuition fees. This tuition fee discount is available to both existing and newly enrolled students if the following criteria are met;

Existing Students:

For existing students in Grades 3 and above, the tuition fee discount scale will only apply if the combined average standardized scores in English, Maths, and Science progress tests is 105 and above. In grade levels where only two out of three progress tests are administered, the average of these two combined progress test scores will determine eligibility for a tuition fee discount.

The table below indicates the average standardised score boundaries for progress tests and the tuition fee discount available.

Average PTR	Discount
105 - 110	10%
111 - 115	20%
116 and above	30%

(All discounts will only be applied to tuition fees and will be granted for the following academic year.

Newly enrolled students applying to Grade 4 – Grade 12 will be evaluated on their eligibility for a discount based solely on their results after undertaking the CAT 4 assessment tool (Cognitive Assessment Test).
